SUMMARY

Aspiring Data Analyst with internship experience in SQL, Python, and Power BI, specializing in data cleaning, EDA, and dashboard development. Proven ability to generate insights and improve efficiency through automation. Eager to leverage data analytics skills to support business decision-making.

PROFESSIONAL EXPERIENCE

DATA ANALYST, SS INFOTECH

June 2025 - Present

- Analyzed and visualized business data to identify trends and patterns, improving decision-making efficiency by 25%.
- Performed data cleaning, transformation, and exploratory data analysis (EDA) using Excel, SQL, and Power BI to improve data quality and reporting accuracy.
- Designed automated workflows that reduced manual processing time by 40% for internal teams.
- Developed interactive Power BI dashboards to monitor KPIs and business performance.
- Processed and analysed datasets with 50,000+ records, improving data accuracy.
- Optimized SQL queries and reducing report generation time by 30% and enhancing performance.

PROJECTS

Business Intelligence & Data Automation Project – SS Infotech (Tech Mahindra Collaboration)

- Processed and transformed large-scale datasets (50,000+ records) using Excel and Power Query to enable accurate performance reporting and analysis.
- Developed and optimized complex SQL queries (JOINS, aggregations) to extract and analyze business data, improving query efficiency and reporting speed.
- Reduced manual interaction time by 40% for users with mobility challenges.

Financial Risk & Customer Credit Analysis Dashboard

- Quantified ₹2.45B+ portfolio exposure and calculated loss rate metrics, shifting analysis from percentage-based risk to capital-impact evaluation.
- Built multi-dimensional risk segmentation models (Grade × DTI × Income) to identify high-risk customer segments and support data-driven credit decisions.
- Developed interactive Power BI dashboards with KPI tracking and financial insights, improving stakeholder decision-making efficiency by 35%.

SKILLS

- Programming & Analytics:** Python (Pandas, NumPy, Matplotlib, Seaborn), SQL
- Business Intelligence Tools:** Power BI (DAX, Data Modelling), Excel (Pivot Tables, VLOOKUP, Power Query), Tableau
- Platforms:** PyCharm, Jupyter Notebook, Visual Studio Code
- Soft Skills:** Rapport Building, Team Collaboration, People Management, Excellent communication

EDUCATION

• Ramdeobaba University Nagpur, India

- Master of Computer Application

• Nagpur, India

Aug 2024 – present

• Dr SC Gulhane Prerna College Nagpur, India

- Bachelor of Computer Application

Nagpur, India

Sept 2021 - May 2024

CERTIFICATES

- IBM Data Analyst Certificate
- Python for Data Science, AI & Development
- Databases and SQL for Data Science with Python
- SAP Business Analyst
- Excel to Power BI Certificate
- Tableau and Visualization Certificate

Leadership & Extracurricular Activities

- Hackathon [Team Leader] – Led a team of 6 to build a project
- Vice President, MCA Department – Coordinated events and workshops
- Rotaract Club – Volunteered in social and technical community service
- Google Developer Student Club (GDSC) – Participated in open-source and coding events
